

Supplementary Figure 1

A

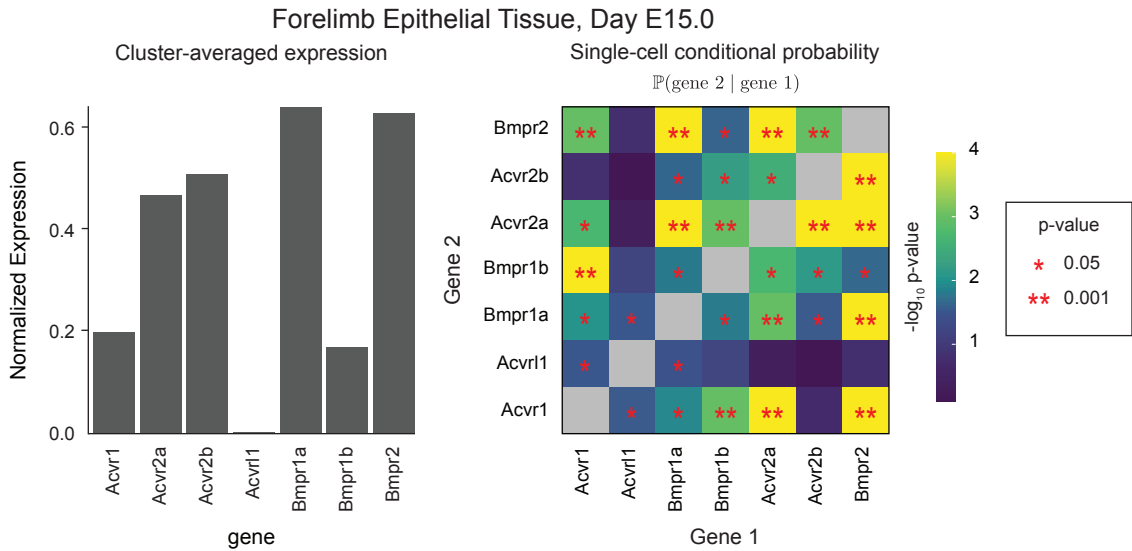

B

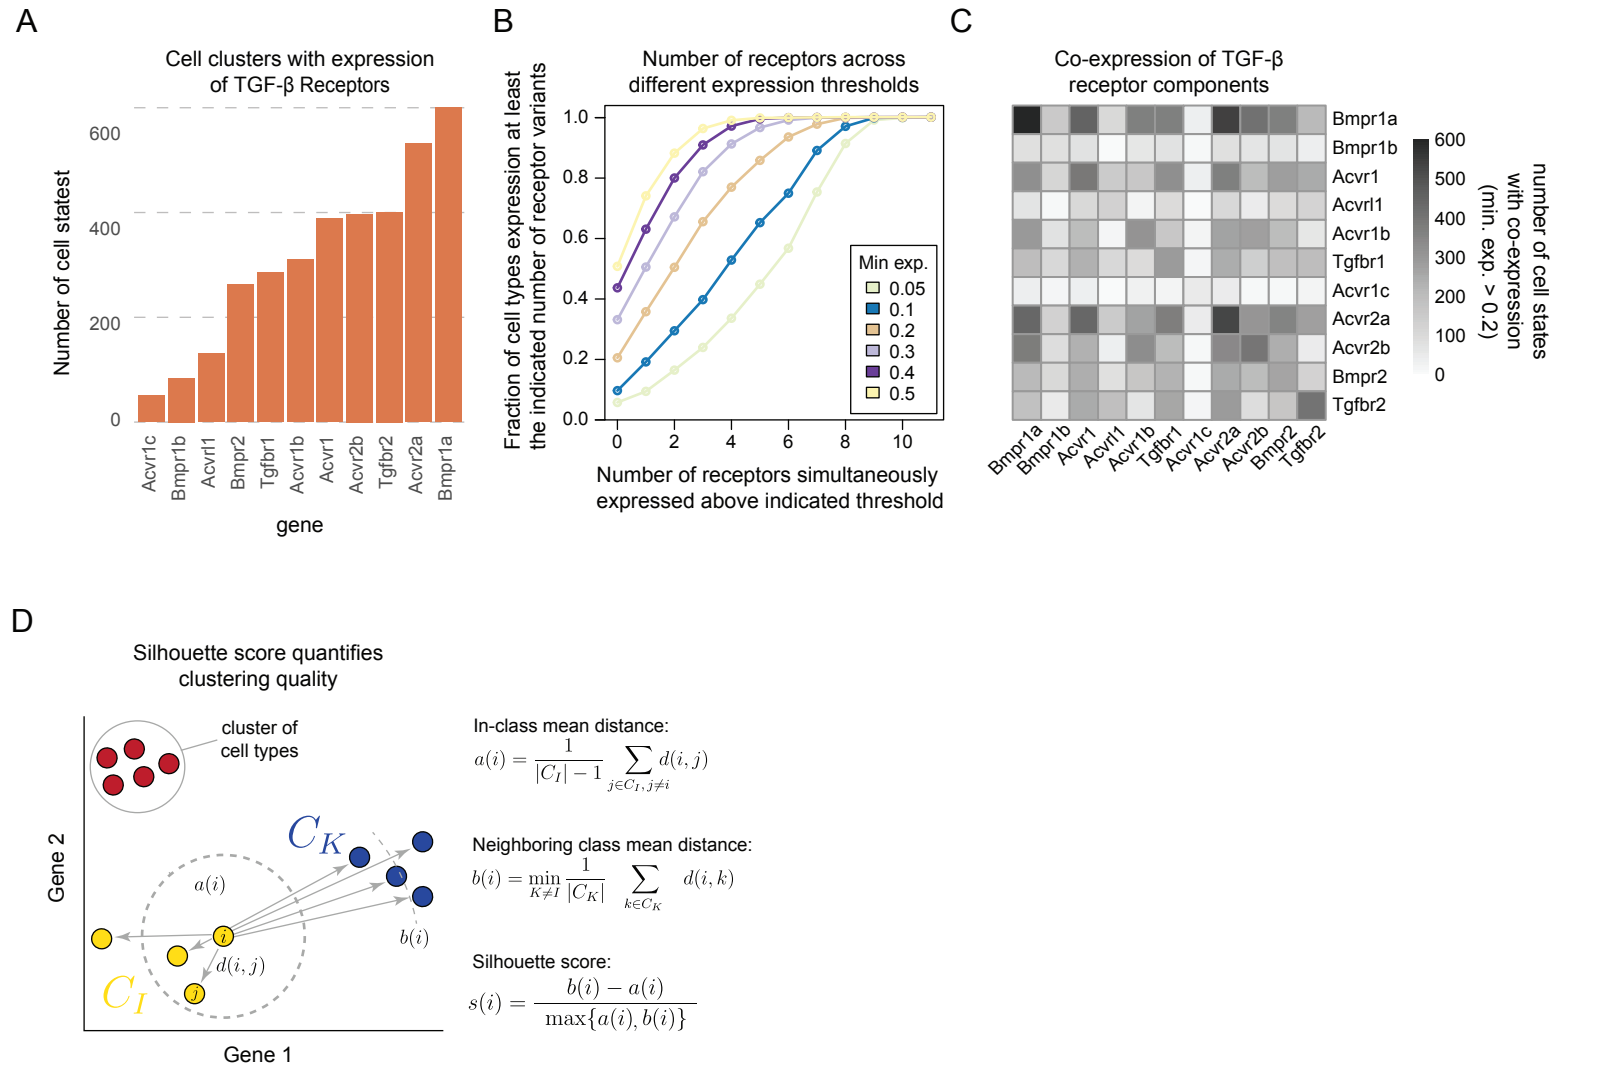

Centroid distance between clusters with same cell type annotation

C

Supplementary Figure 2

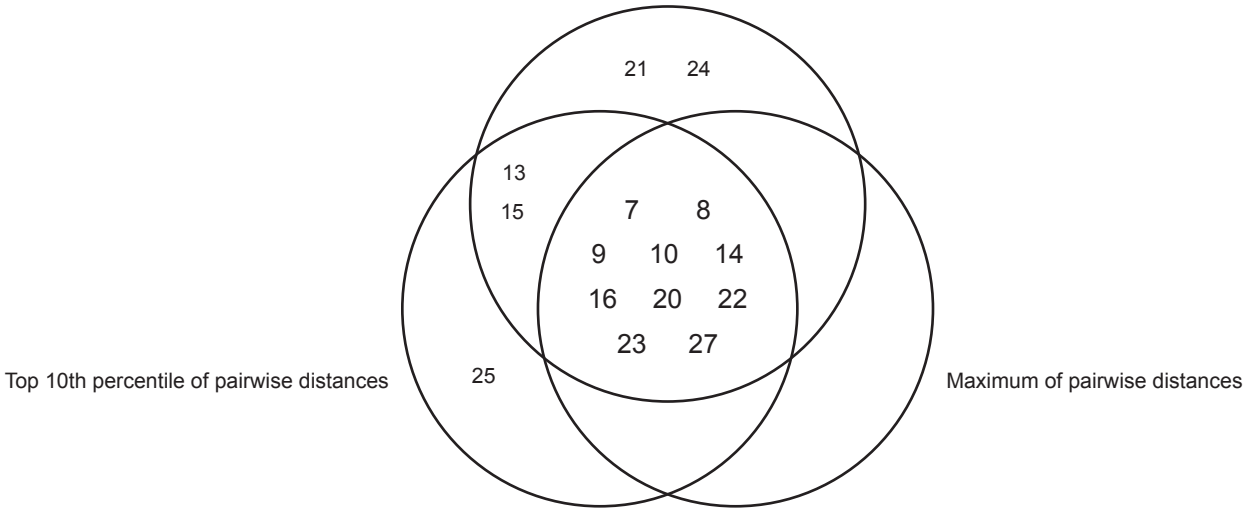

Supplementary Figure 3

A

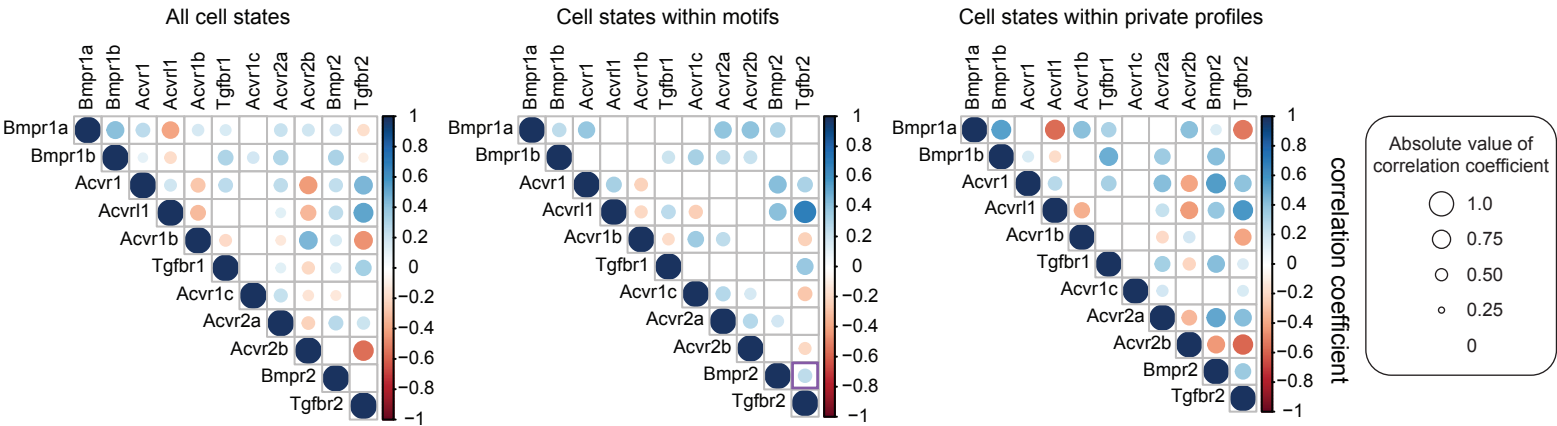

TGF-β motifs obtained with different pairwise distance metrics

Mean of pairwise distances (in paper)

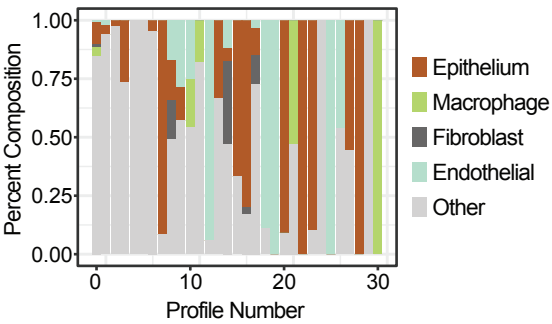

B

Pairwise correlations

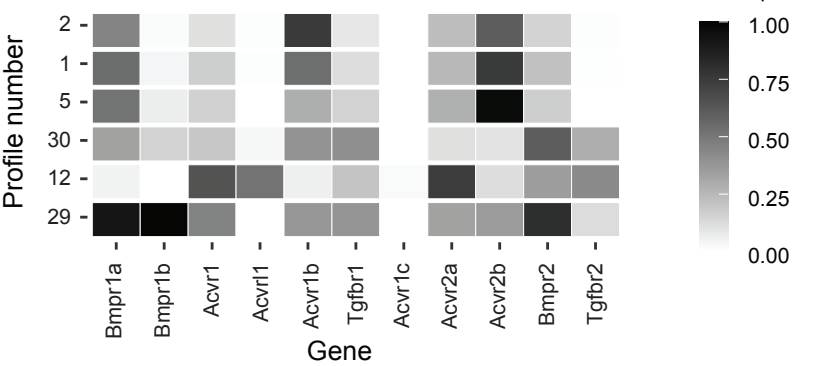

C

Profile Tissue Composition

D

TGF-β 'private' profiles

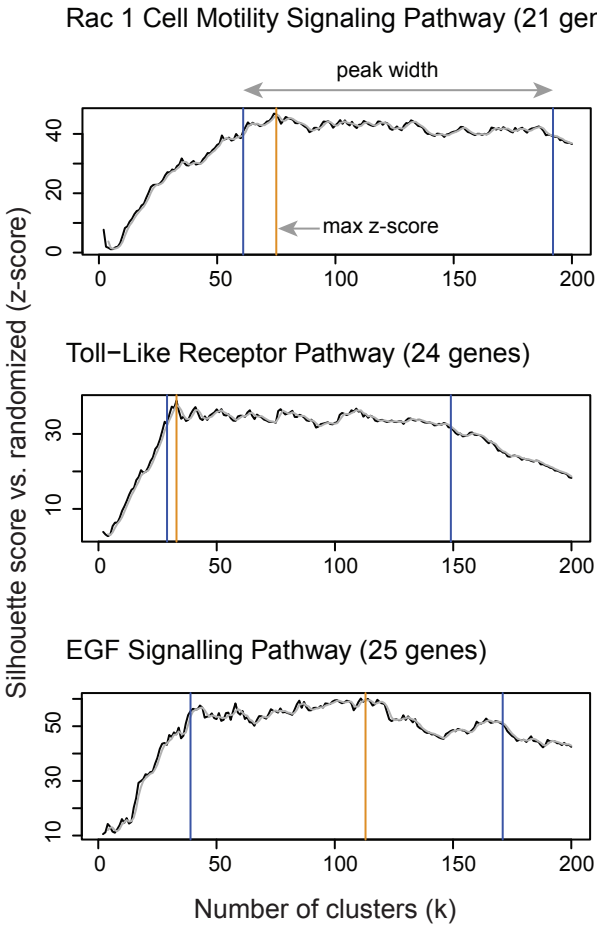

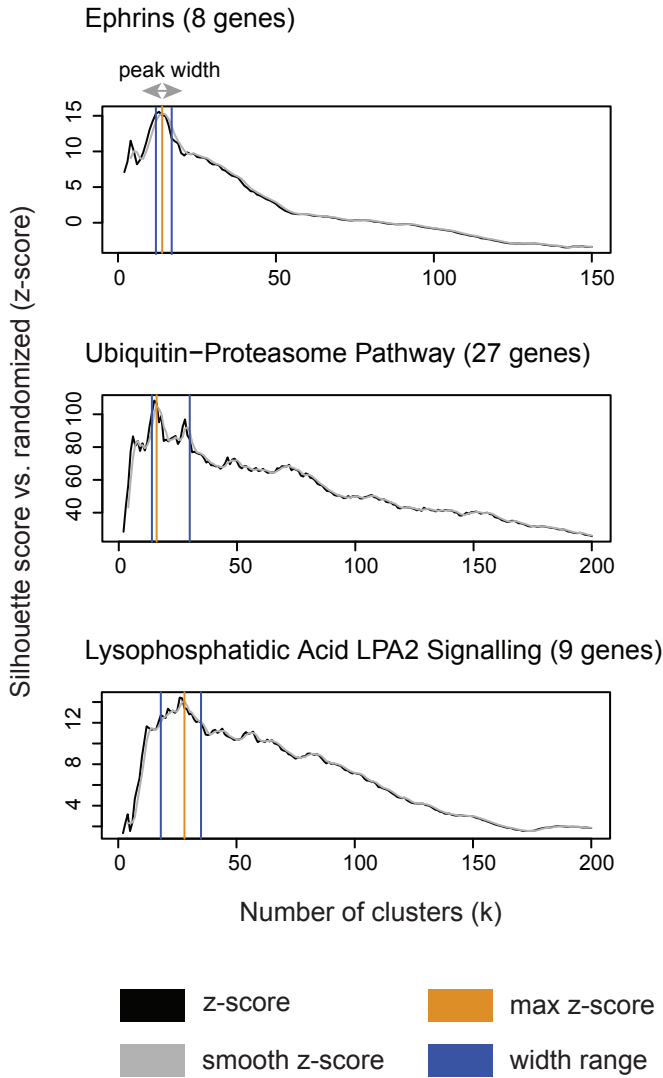

Supplementary Figure 4

A

Well-defined peak (discrete profiles)

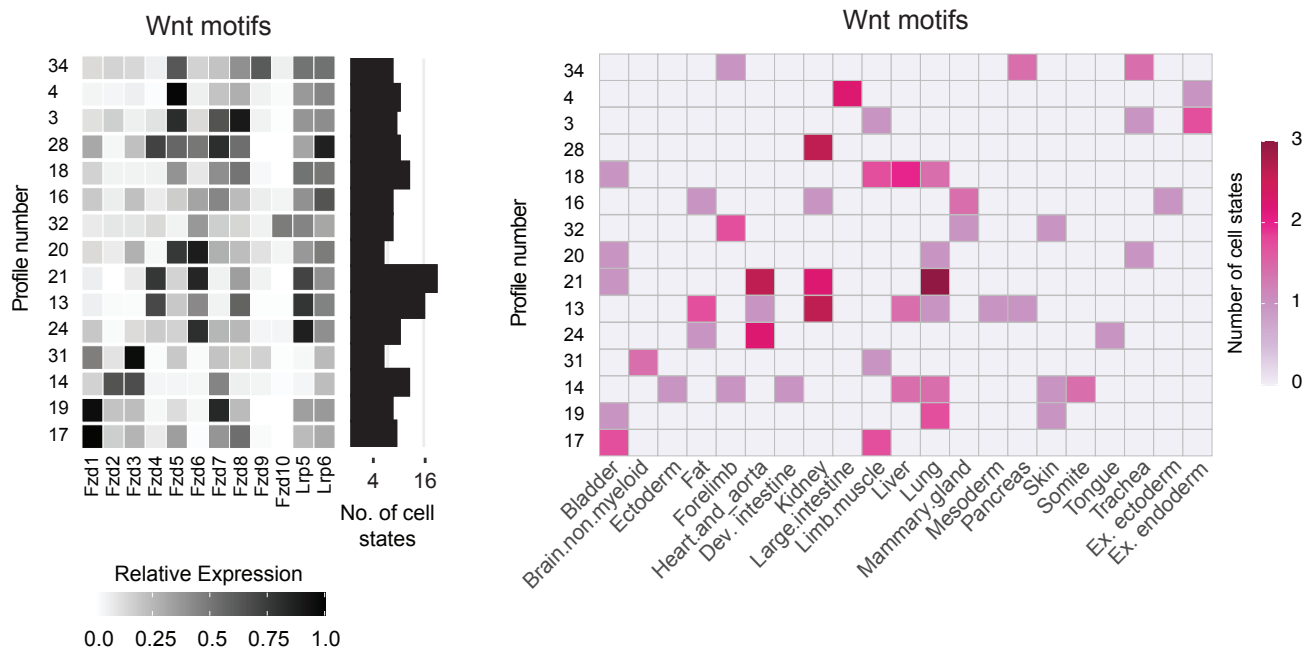

Broad peaks (continuous profiles)

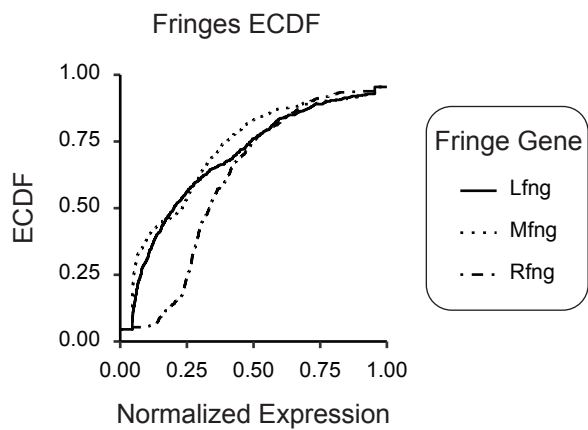

Supplementary Figure 5

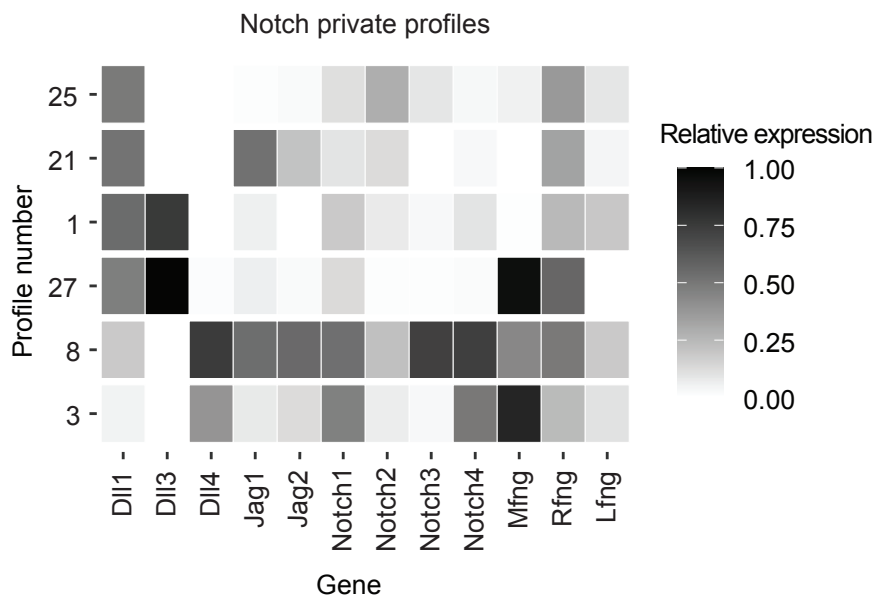

A

B

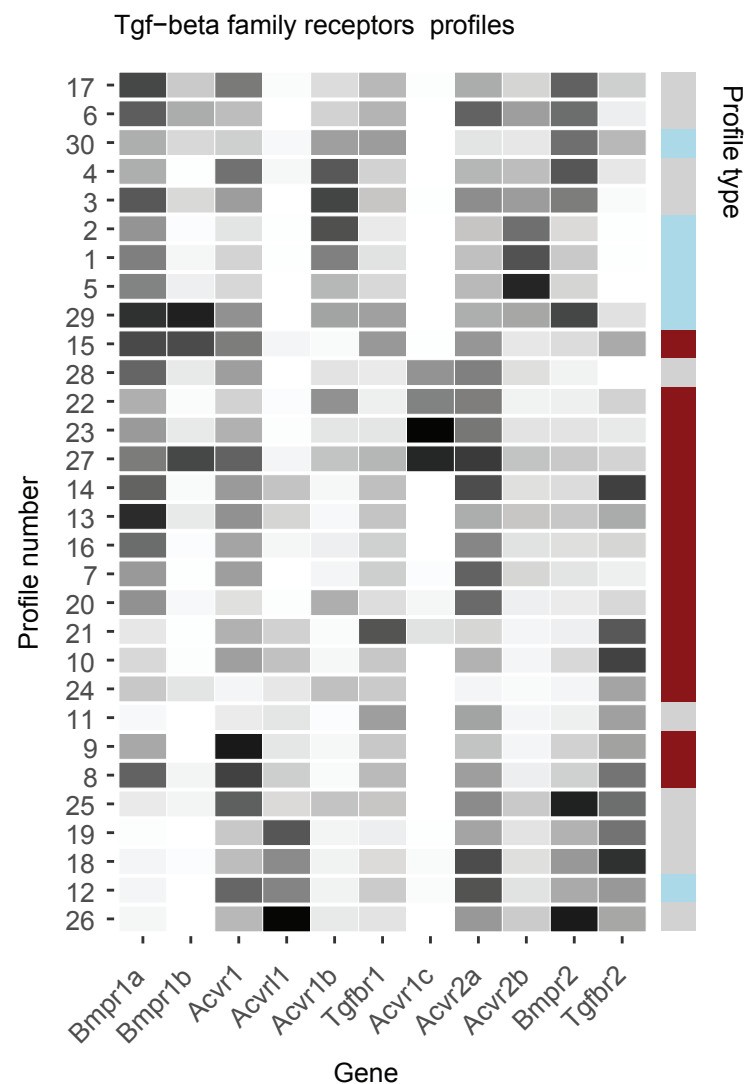

C

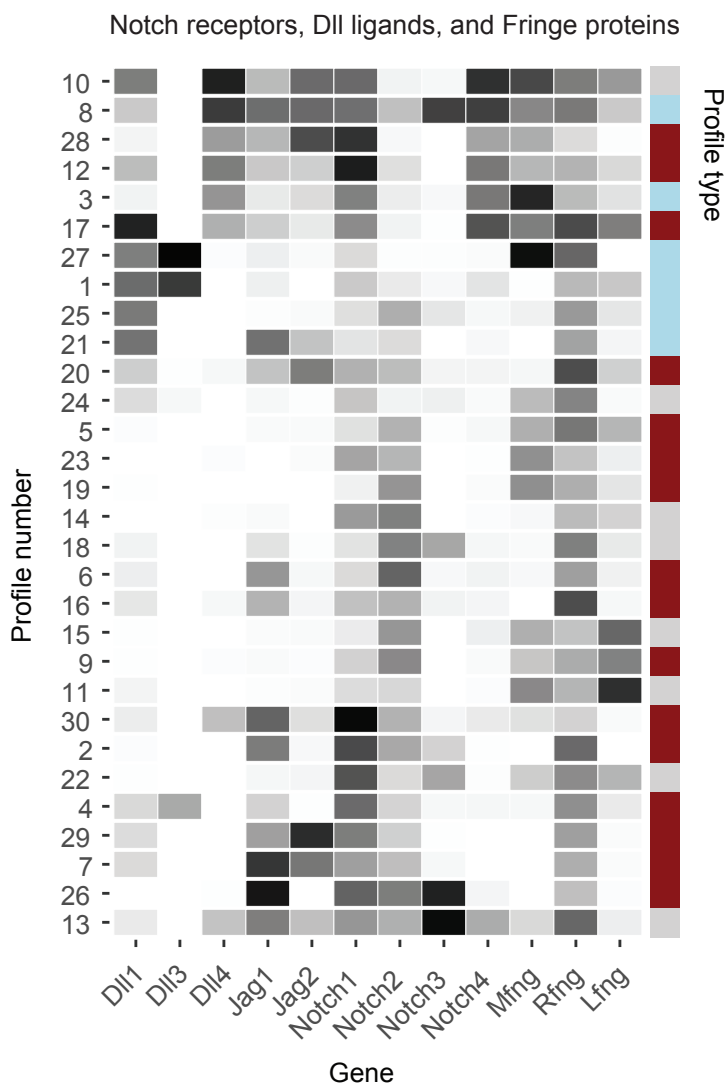

Supplementary Figure 6
